Rimstad and Mates
Return to Form
Of January Drive

By STAN MOHER
Bullettin Sports Editor

CALGARY, Alta., March 18.—During a great January drive which saw Flyers win four of the first five games, Rimstad, Johnny Black and Bill Maher came to be recognized as the ace trio of the circuit.

Black and Maher were flying. The canny Rimstad turned in great play making excellent gains and saves. This made it look easy as Flyers swept to victory over Victoria.

The hard-hitting Reimer of Littlebridge Maple Leafs piled the light-hearted Black into the boards at the Edmonton Arena.

Mohr's game sidelights on Page 10

Black was in drydock for weeks. He came back but something had gone wrong with his knee.

Wednesday night at Victoria Arenas, as Flyers hit Stampeders with a 3-2 kayo knock to knot their battle for the West Coast title, Rimstad and his linemates were back on the beam again, kicking up such a hellish and feuding at close to their best January drive.

There was no time to farm made the world of difference to a Flyer machine which really had a much easier time than Jack Arbous' cowboy team in the recent indicates.

RCMP FROM BLACK.

It was Rimstad from Black at 2:30 of the first period for the big conqueror as he skinned the Flyer stride for the rest of the night. As Rimstad whacked the rubber into the cage, Maher was right at his elbow to add another goal.

Then after Bunny Dandy for the crimson-sweaters, Stamps and Stephen, the two sons of the Flyer, had exchanged goals so that the Edmonton aggregation led 2-1 at the end of the first frame. The result? A tie. The Flyer banged in what proved the payoff tally.

The red light for this one flashed on at 10:37 of the second period. Rimstad engineered the play with Gordon Watt in the net. Mates and Maher, the gent who pulled the trigger by racing in from the side to sweep the rebound in.

10 Men Killed In Air Crash

TAMPA, Fla., March 18.—(AP)—Ten men were killed and 19 injured in an airplane crash yesterday from Spokane, Wash. United States Army air base crashed and burned on landing at Macdill field here.

The four survivors were admitted to the base hospital. The condition was described as good. The weather was coming in for a landing and descending from the edge of the runway at southwest corner of the field.

Passenger aircraft had been flying when stops to coal in pro-

duction have interfered with railroads.

Bureau of Mines reported two days ago that coal stocks generally were at record low level.

MOVE TO END STRIKE.

At the time the ODT acted, govern-

ment had given others permission to enter the coal fields and to make which already has forced the steel industry to cut operations.

Cyrus Chung, federal transportation chief, met with Ezra Van Horn, spokesman for the mine operators, and with John L. Lewis, chief of United Miners Workers (Ind.).

Chung requires railroads to reduce coal-burning passenger train service 25 per cent and to eliminate 100 passenger cars.

It prohibits the carriers from substituting diesel-electric or other equipment for coal unless the motives will be laid up as a result of the order.

Passenger train service re-

quiring coal will be prohibited,

and circus and carnival trains will be banned.

U.S. Slashes Train Service

WASHINGTON, March 18.—(AP)—Government today ordered a 25-per-cent reduction in passenger train service in the United States because of coal shortage.

Office of Defense Transportation order is effective at midnight next Sunday, March 25.

Agreement said the stop was necessary because "railroad coal stocks are considerably lower than those based on current production when stops to coal in pro-

duction have interfered with railroads."

Bureau of Mines reported two days ago that coal stocks generally were at record low level.

GENERAL, 7 OTHERS BAIL ON FLANEY

BERLIN, March 18.—(AP)—Brig. Gen. Telford Taylor was injured today when he and seven other Americans planned to board a plane to Berlin.

Taylor, chief of U.S. Strategic Services, was en route to Germany to inspect the Soviet Patriot unit he helped put together.

Others arrested last night in a security police raid on the apartment of Donald Odell, MP.

Odell, a former member of the Canadian House of Commons, was held on \$10,000 bail.

Passengers were safe, but

Mr. Taylor, who was flying with his wife, suffered a slight leg injury. A sergeant also was

reporting being treated in a

Canadian Leaders Opposed to Reds

Political Chiefs Declare Stand When Canada Said Menaced

By D'Arcy O'Donnell

OTTAWA, March 18.—(CP)—Leaders of Canada's four major political parties in the Commons Wednesday declared themselves solidly opposed to Communism.

Their declarations came as John Bracken, Progressive Conservative leader, said that the peace of Canada is being menaced by Communist agents and Justice Minister J. H. Turner said he had become "alert" to the development of Communism in labor and said that it does not "squeak and furt."
"Canada is menaced by Communism, and of supreme strategic importance in the Communist bid for global domination," said Bracken. He offered full support to any government effort aimed at suppressing Communism.

Prime Minister Mackenzie King, while not minimizing the threat of Communism to the world, said that in his opinion the Communists had their minds at the moment on the Far East and Europe and Asia.

Nevertheless I do believe that anyone who had regard to future world development would look toward the Far East as one of the most enviable spots in the whole globe.

M. J. Coldwell, CCP leader, said that the Labor-Supplementary Paper was trying to infiltrate into his party. As long as he was leader he would not permit Compton Low, Social Credit leader, said his party would give the government its support in combatting Communism. He warned of the dangers of Communism in the country in a dangerous position in event of a Communist coup.

REVOKE CITIZENSHIP

A. L. Smith (PC—Calgary West) said Canadian Communists must be taken from abroad Communists in Canada. Such people could be easily identified, he said, as they are the end of the country to the other. Full-fledged debate on Compton Bracken obtained acceptance of a motion that brought adjournment on the subject.

He moved it after King made a brief statement on the mutual guarantee signed at Brussels between Canada, the United Kingdom, France, Belgium, The Netherlands and Luxembourg.

King said the peoples of all free countries may be assured

Senator Blasts Paper, Denounces Premiers

By Douglas How

OTTAWA, March 18.—(CP)—Senator J. W. deB. Farris (L-British Columbia) said in Senate Wednesday a Toronto Globe and Mail editorial that criticized findings of Hong Kong Royal Commission as false was "the most terrible thing I've ever seen done in Canadian journalism."

He said the paper had failed to point out that Canada will play her full part in every movement to give substance to the conception of an effective system of collective security by the development of regional pact and charter of "subsidiary elements."

As for Communist infiltration into labor ranks, King said: "I do not believe that the extent to which Communists have banded into labor organizations is as great as some people in this country think."

OTTAWA, March 18.—(CP)—Senator J. W. deB. Farris (L-British Columbia) said in Senate Wednesday a Toronto Globe and Mail editorial that criticized findings of Hong Kong Royal Commission as false was "the most terrible thing I've ever seen done in Canadian journalism."

As for Communist infiltration into labor ranks, King said: "I do not believe that the extent to which Communists have banded into labor organizations is as great as some people in this country think."

Such attacks on "the greatest nation in Canada's history" were a "discredit to Canada" and to "legal profession to which Mr. deB. Farris belongs," Senator Farris said.

Senator Farris contrasted with the opposition "any man on the bench who accepts appointment as a commissioner ceases to be a judge and is liable to be sued."

Senator Farris also rapped the Globe and Mr. Drew for their attack on Prime Minister MacKenzie King over revived Hong Kong issue.

Probe Is Charged "Legal Inquisition"

OTTAWA, March 18.—(CP)—A parliamentary committee's investigation of civil service appointments was described Wednesday as "bordering on a legal inquisition." Statements came from Donald Brown (L-Essex West), chairman of the joint Senate-Commons committee on Civil Affairs.

The 44-year-old lawyer clashed repeatedly with Douglas Hardness (PC—Calgary East) and finally said:

"This matter is not within the jurisdiction of the Senate and is a matter of fact. We've made a journey into the fantastic and now are approaching the absurd."

Committee was continuing its inquiry into circumstances surrounding the appointment of C. H. (Pete) Pratt, Resources Minister. Glean, his private secretary, to high post in the last Cabinet.

Hardness, who has charge in Commons of the appointment, was "particularly rank foul" of the man he made minister of resources. It came as he sought "opinions" from C. H. (Pete) Pratt, chairman of the Civil Service Commission, and other government employees called as witnesses.

Hardness contended the committee was after "facts." Other committee members urged only "full story" of past and present to be disclosed. Questioning continued.

Maj.-Gen. Browne Dies in Hospital

OTTAWA, March 18.—(CP)—Maj.-Gen. Beverly Browne, 65, CB, DSO, MC, assistant national resource commissioner of Canadian Red Cross Society and president of Canadian Army Benevolent Fund, died Wednesday in hospital.

Browne was a veteran of both world wars. Sam Browne as he was affectionately known by his comrades, died in the Veterans' Hospital and Civic hospital. During 26 years of service he had at one time been deputy chief of the general staff, administrative branch, before his retirement in 1945, director-general of reserves army.

Widespread Uranium Search Is Expected

VANCOUVER, March 18.—(CP)—Prospectors Wednesday night had a new interest in British Columbia mineral rights as a result of announcement from Ottawa that private prospecting and development of radioactive minerals is to be encouraged.

Officials of British Columbia and Yukon chamber of mines expect a large increase in uranium production next year as the federal government plans to encourage prospecting.

GEN. FOULKES TO CONTINUE STAFF CHIEF

OTTAWA, March 18.—(CP)—Defence Minister Claxton said Wednesday in a statement that "as far as possible" he expects developing the services of both Lt.-Gen. Charles Foulkes, chief of the General Staff, and Lt.-Gen. Guy Simonds, "will be used in a way appropriate to their well-known qualifications."

Gen. Simonds is at present acting inspector of military colleges in England.

Commenting on report Gen. Simonds may be the next CGS.

Claxton stated:

"There is every intention that Gen. Foulkes will continue his functions as chief of staff under present arrangements as is expected will last until some time in the year 1947."

His statement, the minister added, "will be decided in the light of the circumstances."

Minister Promises Feed Grains Probe

OTTAWA, March 18.—(CP)—Commissioner of Feed Grains will be investigated by Comptroller's committee, it was announced Wednesday. Hon. Herbert Martin, committee chair-

man, told the Senate:

"While the minister gave no rea-

son for this deviation of committee, it was understood to have been prompted by reports of 'hoarding' of feed grains by dealers."

He said there had been reports that feed grains were lifted from him last fall.

Holders of feed grains, he said, were not normally engaged in the business. Moreover, he said, grain dealers, perhaps, could be equipped to hold more feed grains in stock than packers plus production and Prince's Sup-

port Board might fulfill the

present tendency to deprice grains.

Mr. Martin said he did not consider present shortage

of feed grains to be a serious problem.

He attributed present shortage to

war policy of keeping grain low

and encouraging importation of cereals

of producers were considered.

Mr. Martin said he did not consider present price unity high when production costs and "comparative" prices of feed grains of producers were considered.

Butter Speculators Have Useful Function

OTTAWA, March 18.—(CP)—Role played by speculators in partially financing carry-over of butter from summer to winter months was defended by special price committee headed by Robert W. Morrison, secretary of Ontario Can Producers Marketing Board.

Asked by Commission Counsel

Fabio Monet, if he considered speculators performed a useful function, he said: "I think they do under present conditions. We find ourselves in a situation where we have to sell during the pasture season. Some one has to own the butter—service must be provided."

Auditorium Plans Still Vague

Some useful facts were elicited at the special meeting of the city council on Tuesday to discuss plans for a civic auditorium, but the proposals are still too vague and nebulous to warrant the submission of another bylaw.

The burgesses, for instance, will never support a project whose date of start and completion is left unnamed. Even if the project cannot be commenced for another two years, some definite starting date should be fixed. Nobody wants to buy civic improvements on a future basis.

The burgesses are in this same division of opinion upon whether the auditorium should be erected in conjunction with an arts centre or whether it should be a separate and distinct project. Before submitting a bylaw, the committee of council dealing with the matter should seek to iron out this difference and find a solution acceptable to both points of view.

The matter of capacity is another point at issue. Labor, for instance, regards the proposed size to accommodate between 2,500 and 3,000 people as inadequate. There is a good deal of justification for that view. The present plan means that if 4,000 Edmonton citizens want to get together for any purpose, they will have to resort to that former horse show pavilion known jokingly as an arena.

It Need Not Mean

President Truman's address to the United States congress, demanding both conscription and universal military training and an early extension of financial aid to the threatened nations of Europe is a vigorous challenge to Russian imperialism. But it need not mean war.

It outlines the immediate danger of the situation and the words of Prime Minister King in Ottawa confirm the reality of that danger from the aggression of the Soviet Union.

But the world is entitled to hope that the very boldness of the challenge and the frank recognition of the gravity of the threat to peace may weaken the mischievous program of Stalin and his colleagues by convincing them that the western dem-

Surely it is not inconceivable that in a city of 118,541 residents there will be many occasions upon which 4,000 to 10,000 people will want to congregate.

Then, too, any civic auditorium, to accomplish its primary purpose of serving all the people, must be large enough to be able to accommodate the maximum number of patrons at the minimum admission fee.

Many civic auditoriums are built so they can be opened out to accommodate 8,000 to 10,000 people or closed off into compartments so that three or four smaller gatherings can be held at one time.

The most vital difference of opinion affecting the auditorium project is the contention of sports organizations that the construction of community centres should have priority over the central structure.

Here again the city council committee will have to effect some kind of compromise that will satisfy both those interested in sport and those interested in cultural development. Each has a high claim on civic support.

It is clear that the work of the city council's committee is not yet ended. In fact, it will hardly begin. For an auditorium will only be of maximum use when it meets the demands of as many citizens as possible.

War

Occurrences, unlike the men of Munich, are not disposed to delay and hedge and appraise.

There are those who believe, with good reason, that had Chamberlain and France defied Hitler at Munich the world might have been saved, perhaps not from war entirely, but from a war of such length and magnitude.

The present attitude of the United States is exactly opposite to that of frightened democracy at Munich.

Munich failed. There is all the more chance, then, that a policy which is the direct antithesis of Munich may succeed.

Certainly the direct and powerful words of Mr. Truman, confirmed by the statement of Mr. Mackenzie King, will not deteriorate the situation in Europe.

They can only make it more hopeful.

Edmonton's Library

The extent to which the books the Edmonton public library circulate among children is complete justification for the plans to establish a separate children's department in the South Side branch.

Last year the library circulated a total of 616,629 books. Of these, the children's circulation amounted to 216,277 and the adult circulation 400,352.

This is an exceedingly high proportion of juvenile readers and indicates that the library's facilities are being extended in a

direction where they will have the most educational value.

On maintenance and on extensions like that of the children's department in the South Side branch, the library board proposes to spend \$10,772 of which \$103,572 is set aside for the city and \$7,200 is estimated revenue from fines, rents and government grants.

It is a modest estimate for a highly important and effective work.

The Edmonton public library on every occasion shows itself as one of this city's most useful institutions.

The English Channel Relaxes

Those who do not believe that nature, like men, grows tense and anxious under the strain of war and seeks post-war relaxation of a hilarious kind, should consider the recent antics of the English Channel.

Laden with drifting mines and grim ships of war for so many years, the Channel grew cautious last Monday and smashed up a cargo ship carrying beer with the result that 70 tons of that delectable fluid now are floating about in barrels on the

bosom of the heaving waters between France and England.

It was a costly gesture but an understandable one and points the relationship between man and nature, his sister.

It seems to be a pity that the United Nations does not possess, sometimes, the same gift for hilarity.

It is a sad reflection on humanity that all the wit and wisdom gathered at Lake Success should be less capable of occasionally commendable frivolity than a mere infinite body of water.

Dirty Trick a Day For Communist Boy Scouts

should be a completely uniformed group, to be provided for the purpose.

Western scouting, a dirty game to play. Weather not permitting an even dirtier game of Soccer than those played in the past will be good practice for the Communists. They must explain how the decision to play football instead of cricket has the benefit of the doubt.

When a game of football is to be played, a mock trial must be held to determine the proper humility as a wrasted amateur, he would like to offer a few suggestions to the master clowns.

May he suggest with the full knowledge that his suggestions are not approved by the Lord High Comptroller of the Kremlin, he will be compelled to form an Arthur Horner Cultural Centre for Uncle-Soviet Comrades (or Comrades-in-Chief) and that in place of the old-fashioned Scout motto, "One Good Deed a Day," the motto, "One Dirty Trick a Day," should be substituted in accordance with Communist behavior?

Please let me suggest that the following dirty tricks should be practised each day of the week by Communist Boy Scouts:

"At ever the world as we know it."

Military Strength Need for Peace

U.S. State Secretary Marshall Supports Universal Training

WASHINGTON, March 18.—(AP)—State Secretary George Marshall told Congress members Wednesday that "diplomatic and military strength" and the backing of military strength in the present world can lead only to appeasement.

Marshall testified to the Senate's unopposed services committee in support of universal military training, a permanent and temporary enactment of a selected service law.

Committee opened hearings on these proposals only two hours after President Truman had accepted the recommendations of his recently-delivered message to Congress.

Marshall said that in addition to these military measures "a recommendation of air programming is also necessary."

"The combination of two things, enaction of a European reorganization program over one year and a decision by the American people that clearly indicates that they want to have a peacekeeping force, is all that is necessary now, I think, to the maintenance of peace in the world."

EUROPEAN TREND

Marshall expressed concern over what he called the "accelerated trend" of events in Europe, specifically mentioning the situation in

of the Balkan states, except Greece, and the fact that both Hungary and Czechoslovakia have been forced into closer economic submission to the Communist control."

He reminded the committee that while Italy voted (April 18) to hold a national election, this, he said, "has an immediate bearing far beyond local Italian affairs."

"It will decide not only whether Italy will continue with its recent policy of strict neutrality, but whether the disintegrating trend to which I have referred may reach the shores of the Atlantic."

Soviet Makes Minor Treaty Concessions

LONDON, March 18.—(AP)—Russia made minor concessions today in her price for an Austrian peace treaty, an American observer said.

N. P. Klimtow, Russian delegate in the four-power meeting of foreign ministers, told the Soviet Union he would offer its \$60,000 claim on Austrian oil production from 66.2 per cent to 64 or 65 per cent.

He said Russia also was prepared to take a smaller share of cash payments from Austria—\$100,000,000 to \$175,000,000.

On both sides the settlement about half the Russian asking prices. France suggested she was willing to give up some of her claim on Austrian oil in return for surrendering claims in return for compensation against former German assets in Austria.

Europe Excursions Through Churchill, Hudson Bay Seen

RIGA, March 18.—(CP)—Frank Ellison, secretary of the Hudson Bay Route Association, told a annual meeting Wednesday passengers could travel from Western Canada through Port Churchill and Hudson Bay to Europe.

Passengers living in Western Canada were anxious to visit Europe and thought they could find good accommodation as long as they reached their destination cheaply.

W. G. T. Bunker, chairman of the association, said the arrangement with Russia's claims for compensation in return for surrendering claims against former German assets in Austria.

UN Meet Marked By Name-Calling

Speakers Answering Gromyko Thrusts Are Applauded

By Larry Hauke

LAKE SUCCESS, March 18.—(AP)—Russia seemed impelled to fight on against a United Nations inquiry into Communism in Czechoslovakia.

UN Security Council voted yesterday to hear all that can be heard on the subject. A decision was taken against a backlog of bulletins emanating by Gromyko, thrusts echoed three times in the packed, usually staid chamber.

Council set next Monday for the start of debate on the case of the Czechoslovak government.

Gromyko left the Cuban compartment, a dirty and squalid room, he said. He was a lackey of influential foreign circles; and he had been a member of the UN delegation discharged by the new Prague Communist regime, a new.

Most prolonged applause from the crowded spectator section broke out when Dr. Alfonzo Lopez of Costa Rica looked at Gromyko and said slowly:

"I believe it is high time that something is done about the use of this kind of language when referring to some of the non-government members of the United Nations."

As a result, housewives could not wait until prices become more reasonable,"

he said.

\$100,000 HAS HIM STUMPED

Sweepstakes Winner Fails to Find Happiness

CHATEAUQUAY, Que., March 18.—(CP)—To become \$100,000 richer unexpectedly does not always mean happiness. It often means trouble, and much more when you're a small wage earner used to little more than \$5 a week.

Emilie Mullen of this Chateauquay town, 11 miles east of Montreal, was a fireman in a local foundry when he won \$100,000 in a sweepstakes last Saturday, Oct. 29. Today, he still was at work as an apprentice steel in a garage because he does not

know what to do with his newly-acquired fortune.

"You see, when a man has too much money, he gets into trouble because he does not know how to spend his money," said Mullen.

The 35-year-old widower, who has two sons, 12 and 14, and a daughter, Chantal, four months after winning the sweepstakes, says he bought a 1947 automobile and a suit for his coat is 17 months old.

But the money has not made him happier.

"To have money puts you in all kinds of difficult situations," he explained. "You may think money means security for the future, but it doesn't. You can't afford to care?" A sum of \$100,000 may be spent so fast, you know."

The sweepstakes winner, who has been a fireman since he was 12, decided to keep on living as you live, and when he got his \$100,000 he turned over all his savings to other members of his family.

As a result, housewives could not wait until prices become more reasonable,"

he said.

Sad Sam Timmins Versus The Great John Ducey—Peace? She's Wonderful

CALGARY, March 18—Big Bluff Sam Timmins wouldn't know how to be bitter about anything. But dignified—yes. And that's the way he was Wednesday as he discussed certain aspects of the approaching Big Four Inter-City Hockey League.

Timmins and Harold Cundin, both of Purdy 99 squad slipped through on the rail in the last few hops to grab the pennant last season, played host at a luncheon to newsmen and radioheads.

The big news to be discussed was the fact that Buffalo Stampeders had come up with a facelift in the form of an artificial lighting system. "We'll have the lights in time for the first game," Timmins promised the gathering.

It may be a trifling optimistic on that score. But the contract has been let and there's no reason to doubt that it will be baseball under the stars for Calgary and districts fans before the 1948 schedule has been long out of the wrapper.

But more about the lights later.

Timmins wasn't long getting around to a second matter, however, to do with Price. Last season the University of Alberta whiz-kid played about the best second base in the league for Edmonton Motors Club.

Recently it was disclosed that Price planned to play his baseball in Calgary this summer. Under an agreement worked out with Timmins, the 19-year-old will defer his professional employment in the little city to the south and cut his keystone canes for Mr. Timmins Buffaloes.

Which was a jolly arrangement—particularly from a Calgary point of view.

Enter one Jim Ducey who knows a thing or two about the intricacies involved in trying to keep a baseball team in the Big Four League category.

He didn't cotton to the plan at all. In fact he suggested such a deal would violate the league constitution which prevents team leaders from negotiating with players on other clubs.

Ducey took up the question with President Henry J. Rothie, who quickly despatched a sharp note to Timmins reminding him that if burglary was to be practiced in Big Four circles at least it would have to be more subtly handled.

It was this missive which touched off a Timmins' outburst almost in the same breath as he was announcing the deal for the lights.

* * * * *

"Ducy Nothing But Popoff"

"Ducy is nothing but a popoff," he bellowed. "With his rantings about us trying to steal his ballplayers. Sure we're going to play Price. After all we wrote asking for employment of a nature would show him to complete a university thesis on his return to school in the fall."

"I think he's downright foolish if anything like that interferes with his accepting it," Timmins said.

"In any event, he's not. What more, his baseball pay is guaranteed, one way or the other. We know how to operate down here."

League President Roche didn't escape unscathed, either. The president doesn't rule in his favor, but Timmins observed, Up to now I've only suspected that he was."

While it isn't hard to believe Timmins had good reason to be annoyed by the Buffalo leader, it's pretty tough on the rostrum. It's hard to see how he's going to get around the regulations as they pertain to doing business with players on other clubs.

He said that Price made the first move. Even giving him this fact remains that Timmins was out in left field the minute he began to entertain the idea.

* * * * *

Sam Helped Draw Up Rules

The league constitution prohibits such a course of action. And "Bad Sam" helped draw up the rules.

In any event, bosman Roche might have to call on the services of the law to get his man Price off the hook before he makes out of the current Ducey-Timmins controversy.

And the guy in the middle? From where we sit in the gods it's second-bestie price. All he's got was 100 summer employments to his credit and can't rock a fellow for a dollar. That's promptly his house of cards began to totter.

Timmins also disclosed that Jim Gibson, his pitcher-punter, failed to make the 1947 Buffalo team in 1946. The California success of Utterman who no longer figures in Timmins' plans, even as a player.

The Calcium lighting system is the eighth standard on which he's been set. 120 globes each of 600 watts.

He had "Sad Sam" tell it British Isles is going to come into the best lighting system of any ball park in Canada. Of course, as everyone knows Renfrew Park already boasts just that.

Peace! She's wonderful . . . no?

Bonnie Doon midgets took a short step toward the Community League championship Wednesday night when they nosed out Cromdale 3-2 in the first of a two-game, total-goal series at the arena.

Fort Frances Club Ousts Forts 4-2

PORT ARTHUR, March 18—(CP)—Fort Frances Canadians trimmed Fort William Legion, 4-2, here Wednesday night to win the Thunder Bay senior hockey championship.

It was the first time in history the Western border town has won a senior title. The Canadians are now await the winner of the Minto final between Winnipeg Flyers and the Vees.

The victory gave the Canucks the best-of-seven series by four games to two, with one game tied. They were led by Gordie Neale, 2-4, and 3-1, tied the fourth and third, and then dropped the next two, 6-1 and 4-2.

Murray Robertson, one of four Robertson brothers with the Fort Frances club, netted twice for both Canadas, the others going to Mike Hupchuk and Doc Johnson. George Nisbet accounted for both Fort William scores.

CALGARY HOOPS FADE

Early in the final period Gordon (Bud) Hunter, who had started his netting on a blistering 50-foot drive, Al Rollins in the Flyer net had his first goal. Rimstad lashed it on top. But it ricocheted criss-cross off a pair of sticks as it neared the post. Terryany was out in front in the middle of the lower right corner by the time Rollins again got it between his legs.

The Calgary gang peaked up after this shot in the form and age of Doug Hodge and Doug Clegg providing a couple of amazing moments. But a Flyer squad that was full of promise from the start as well as a neared post territory was out in front in the middle of the lower right corner by the time Rollins again got it between his legs.

The Flyer boys might easily have four or five goals faster at the finish. For all that Rimstad, Black, Maher, Merlik and Doug Anderson had been on the ice east west at a heart-stopping rate.

Lloyd Turner had his risk loaded along the line of sardines of a team and the game was still on when he was cut in two by a stick which

split him in half. The Flyer boys went right after their conquerors of Monday when the game opened and Rimstad's goal in less than half of second with the cut moment of his career was the beginning of merchant seamen in Canada.

At Toronto, Dewar Ferguson, member of the national executive board of the Canadian Seamen's Association, said: "There is no shortage of merchant seamen in Canada."

"This steamship firm is merely trying to break the union," he added.

Last Tribute Paid Victims of Crash

ANCHORAGE, Alaska, March 18.—(AP)—Relatives were dimmed through cloudbursts and snowstorms Wednesday in final tribute to 20 persons who died Friday in the crash of a Northwest Airlines Sikorsky S-51 mail transport plane. Meanwhile, Jackie Huller, one of Alaska's most famous dog mushers, set out to find the bodies and the possibility of removing the bodies from the treacherous mountain side. Tricycle Set Wants New Look Fashions

By Bea Thrifty

"New look" is just as important to the tricycle set as it is to mothers and big sisters.

Time was when a well-reddened look was the only fashion note for little people.

Now they have to Gibson girls blouses and skirts. Cole's in town has some that are priced at \$2.98 (red or navy blue). Blouses with wide pointed collars and flared hemlines are \$2.98. The same little miss happy self for \$2.98 and up.

There are so many plain sailor-style skirts that would make little Queen of kindergarten—for \$2.98.

Discrepancy between your budgeted meat allowance and your number of mouths creates a planning problem.

Drop in inexpensive cuts of meat with reasonable seasoning such as chopped green pepper, a corn and sausage casserole. Or with frankfurters, a cellophane packaged dinner at 41¢ per pound.

Gleaming wood of dining-table shows through delicate tracery of lace pasted patterned place mats and napkins that will have a special find for 4¢ pieces.

Make your "old look" basic black into a "new look" charter with a 12-inch taffeta rufflet at skirt hem. You can buy the fabric for \$1.49 per yard.

Have you ever been "fishin' for trout" to find the last egg you broke into?

DOROTHY DIX SAYS—

Firm Treatment Best For Lazy Housewives

DEAR MISS DIX: I am 37 married 12 years. We have two children. When I married my wife I was very good, but now I am so much so that I did not pay too much attention to what a bad housewife I had become. I thought she'd improve as she grew older. But she has grown worse and worse, especially about her personal appearance.

I try very hard to keep up my end of the bargain, but it is very trying to live with a lazy house, dirty kids and a sloopy wife and nothing fit to eat. She is still very pretty and I want to be with her to be happy together if she were not so lazy. She has perfect health, so she can't use even that as an excuse. I have tried to talk to her, she only cries and says I do not love her any more.

All I can do is to go to bed and run to the neighbor's houses all day. What in the world is a very puzzled husband.

ANSWER: Your problem is easy to read, the rest to solve. It's a man instead of a woman. As long as you are telling your wife to make a doormat out of you, she will do it. But you can turn her into a good housewife by the same process that you would use if you were dealing with a business. You must be the captain; hold up his end of the job.

All you would have to do is to read the rest to see how to do something about it. Tell her that your patience is exhausted that you are tired of coming home to a dirty house, dirty clothes and a house that stand no neglect of the club dress and longer, and that she ought to be doing her share as a wife and mother, or get out.

When she moves out that you no longer care for her, and that you expect a man to take her, how would you like to stay in the room? The child may be nervous and upset at his loss of favored place in family, or you may desire, unconsciously, to regain it by becoming a baby again.

In either case if his bed-wetting continues, he will be the one to blame, it tends to increase his sense of insecurity and unhappiness. The child may be nervous and upset at his loss of favored place in the family, or you may desire, unconsciously, to regain it by becoming a baby again.

Under Stress

Their reaction to their anxieties, unsuspected by parents, may be bed-wetting, or loss of toilet control, or fear of falling. The sympathetic nervous system acts directly on the excretory organs and causes them to act when the individual is under stress of strong emotion.

What happier period of time have we experienced than middle adolescence? We still feel when we enjoy the flowering of family associations and friendships, and when we should know better than to fret about non-existent problems.

Benjamin Franklin recognized the fact that too few of us realize the burden of middle and old age when he wrote:

"Many foxes grow gray but few grow good."

Everyone expects young girls like Avril Margaret Field to be gay. But middle-aged persons, too, can retain that spark of life with a little effort.

Why Grow Old?

By Dorothy Dix
It is interesting to read some of the thousands of things which have been said and written in the past about such subjects as aging, wrinkles, hair, diet, exercise and so forth.

For instance, Don Marquis writes in "The Almost Perfect State":

"Old middle-age the best that can be said is that a man need not grow old if he doesn't have a little fun in spite of his troubles."

Yes, fun sometimes seems that this is exactly what people forget as they grow older. Nature seems to be a great teacher of values and skill in the art of sloughing off non-essentials with a laugh, as well as a knowledge of what to keep.

This kind of wisdom cannot be taught, but it can be learned from those who are still happy and so forth, while we discard these which

YOUR BABY AND MINE

Children Worry More Than Parents Suspect

By Dorothy Meyer Edmonson

Sometimes we are apt to be silent and self-concerned about the influence of emotions on the child's behavior, especially when the baby is involved. We are apt to be full of excitement, with too many persons pawing over him and too much fussing over his every move. The baby does not sleep well or is fussy when awake.

Sometimes we are inclined to assume that the child's loss of bowel or bladder control during or following an illness is due to emotional factors.

It is the sensible, highly emotional children, who react to events by fearing, tears, and clinging. They are the ones who are most likely to show the results of their crises of emotion by being cross, crying easily, or losing control of their excretory system.

May Be Penalty

Bed-wetting may be the penalty a child pays for being jealous of another child, or for fear of being left alone. The child may be nervous and upset at his loss of favored place in family, or you may desire, unconsciously, to regain it by becoming a baby again.

In either case if his bed-wetting continues, he will be the one to blame, it tends to increase his sense of insecurity and unhappiness. The child may be nervous and upset at his loss of favored place in the family, or you may desire, unconsciously, to regain it by becoming a baby again.

Dates Back in Stores; Boon to Housewives

By Bea Thrifty
The housewife in one dates back on the market. Once again this sweet, nutritious fruit is available for cookies, cakes, pies, and are some favorite recipes gleaned from various famous cook books:

DATE AND CHEESE LOAF

4½ cups boiling water
4½ cups flour
½ cup sugar
1 cup oil
1 well beaten egg
½ cup chopped nut meats.

Pour boiling water over dates and let stand 5 minutes. Sift flour, sugar, oil and nut meat. Add mixture, egg, cheese and nut meat. Mix well. Bake in wire lined 9x5x3 inch loaf pan in moderate oven 350° about 50 minutes.

DATE PIE

1 cup pitted dates
1 lemon, juice and grated rind
1 cup water or juice
1 cup flour
1 cup sugar
1 tablespoon butter
1 teaspoon cinnamon or nutmeg
½ cup coconut may be added if desired.

Combine all ingredients. Bake in a pie dish in a hot oven (450°) for 10 minutes, then 400° for 30 minutes.

DATE BAN MUFFINS

1 cup bran
¾ cup flour
¾ teaspoon salt
1½ cups brown molasses
1 tablespoon melted shortening
1 cup chopped dates
½ cup milk
3 eggs

Mix and sift the flour, baking powder, salt, sugar, bran, the molasses, the milk and gradually. Then add the well-beaten egg and bake in a 300° oven for 30 minutes.

DATE ALMOND COOKIES WITH A DATE FILLING

2 cups fine oatmeal
1 cup flour

½ cup sugar
1 cup dates
½ cup butter
½ cup brown sugar
½ cup water
½ cup brown sugar and rice

Mix the rolled oats, flour, brown sugar, baking soda and baking powder together and cut in butter until well blended. Add the dates and the molasses. Press into a half inch square. For filling boil water, lemon juice and sugar. Place the filling over the bottom layer of crumb and then sprinkle the remaining crumb mixture over the top. Bake in a 300° oven for about 40 minutes.

DATE CRUMBLE

½ cup bran
½ cup flour
½ cup shortening
2 cups cold rolled oats
1 cup sugar
1 cup milk
1 teaspoon salt

Cream butter and shortening and add remainder of ingredients after together, mixing well. When very crumbly, press into a 9x13x2 inch pan. Spread with filling, half the crumb mixture, pressing well into filling. Bake at slow 325° for 5 minutes.

Burns off excess crumb. Cool, then move when cold. These should not be more than ¼ inch thick. Yield: 16 to 18 pieces.

Then add the remaining crumb mixture over the top. Bake at 350° for 20 to 25 minutes.

STUFFED DATES

Remove pit from dates being careful not to hurt fruit. Following directions for filling, stuff dates.

Peanut Butter—Combine ½ cup dried apricots and ½ cup pecans through fine knife of food chopper. Knead 1 cup fondant into mixture until well blended. Make filling for 10 to 20 dates.

Apricot Pecan—Put ½ cup dried apricots and ½ cup pecans through fine knife of food chopper. Knead 1 cup fondant into mixture until well blended. Make filling for 10 to 20 dates.

Cherry Coconuts—Put ½ cup dried cherries and ½ cup shredded coconut through fine knife of food chopper; mix well. Stuff dates.

First Aid For Plants Stricken With Pests

Don't let plant pests get the best of your house plants and flowers! After all, no plant can blossom and be beautiful when it's sick.

Here are some first-aid tips to fight them:

Scale insects are sucking insects which usually attack the stems of a plant, with a larger waxy covering or scale. The scales may be round, oval, oblong or flat, and often appear on ferns and palms.

You can pick them off with a toothpick, or wash them off with soft brush and water, or kill them with commercial sprays.

White flies look like bits of white cotton or wax wings between leaf and stem (they have a pale pink body). They can be treated with insecticides.

Thrip, also called green flies, are tiny insects that damage flowers and leaves. Treat with insecticides.
